

## LAST DOLLAR GRANT COMMUNITY SERVICE FORM

As a part of *The Future Begins Today* Last Dollar Grant program, recipients are responsible for completing a total of **15 hours or more of service within the Troy, Ohio community** each school year in which the grant is received. This service may be done for a Troy organization or an individual (not an immediate family member). Please ask if you're not sure.

It will not be counted if there is payment involved or if the student is given credit for the service as part of another program or as part of a school requirement. Students who are entering their senior year of college are expected to complete community service prior to graduation. All others must have their community service completed before June 30.
